(a) Enclosure to CIA-36088 of 15 August 1950

1. The proposed Interagency Operating Procedure No. 4, contained in the feference, is approved subject to the deletion of paragraph 7 b.(1). As the CIA Chairman of the Watch Committee is charged with the maintenance of the Master Check List and as it is believed this list should contain all items of concern to the participating agencies, the departmental check lists would be a duplication of sections of the master list. It is considered that all Watch Committee members should take cognizance of all indicators bringing applicable information to the attention of the Chairman and the appropriate agency.
